

Extension pipes for CHVST2/D2

Minimum and maximum lengths (standard pipes)

Minimum and maximum lengths standard pipes + extension pipes 1:

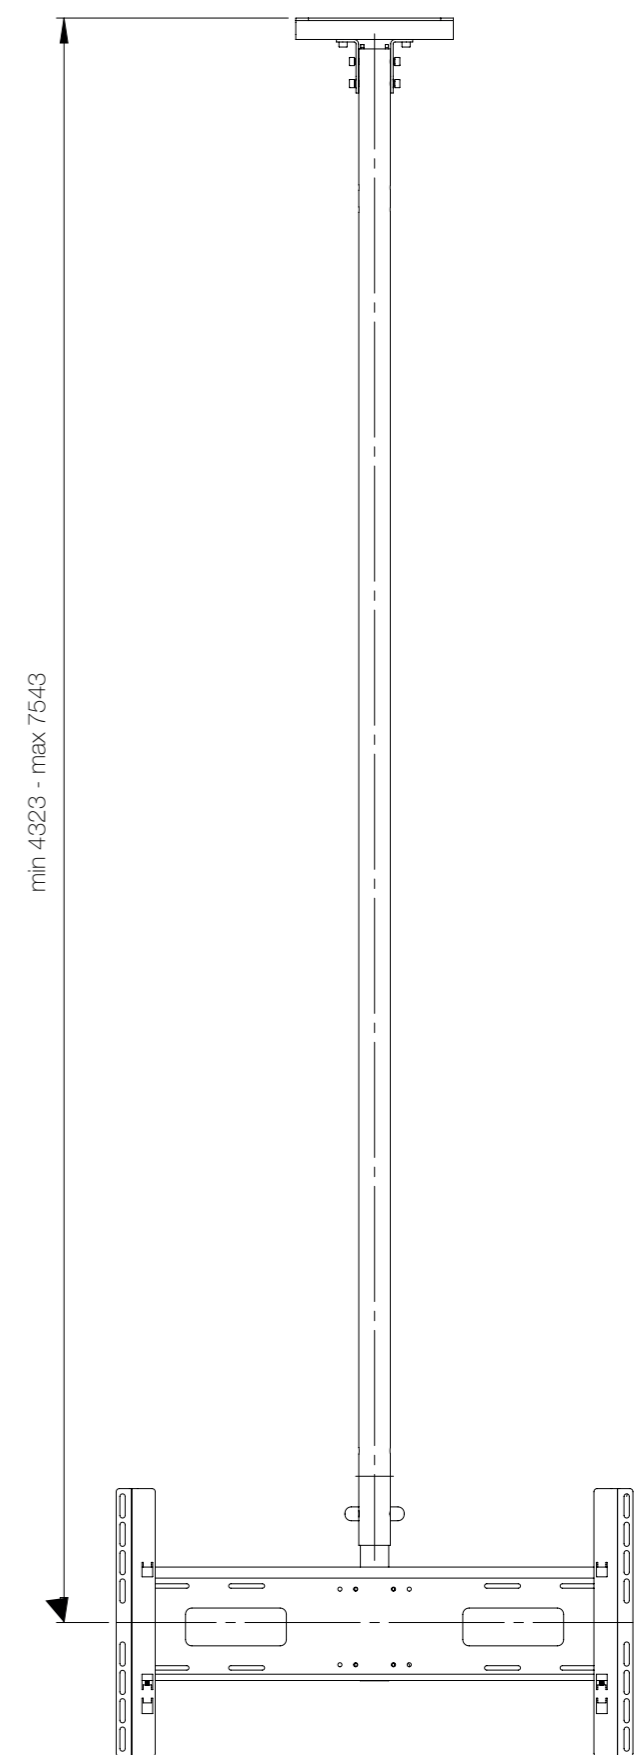

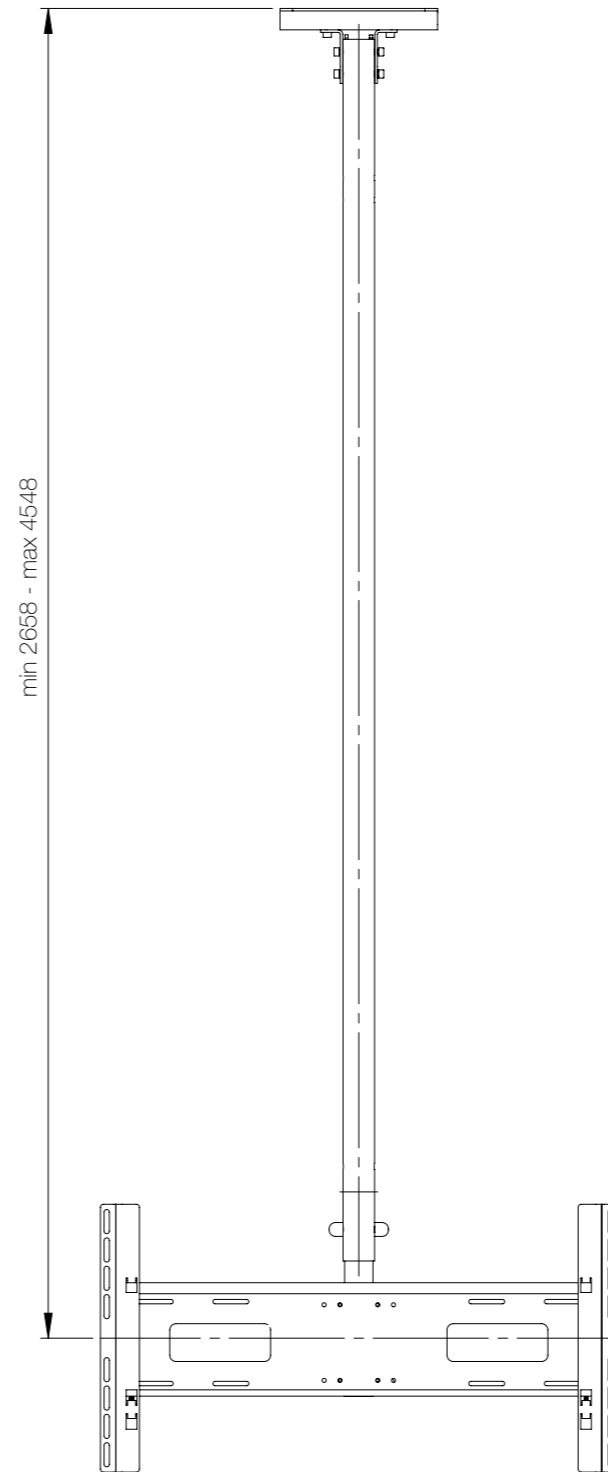

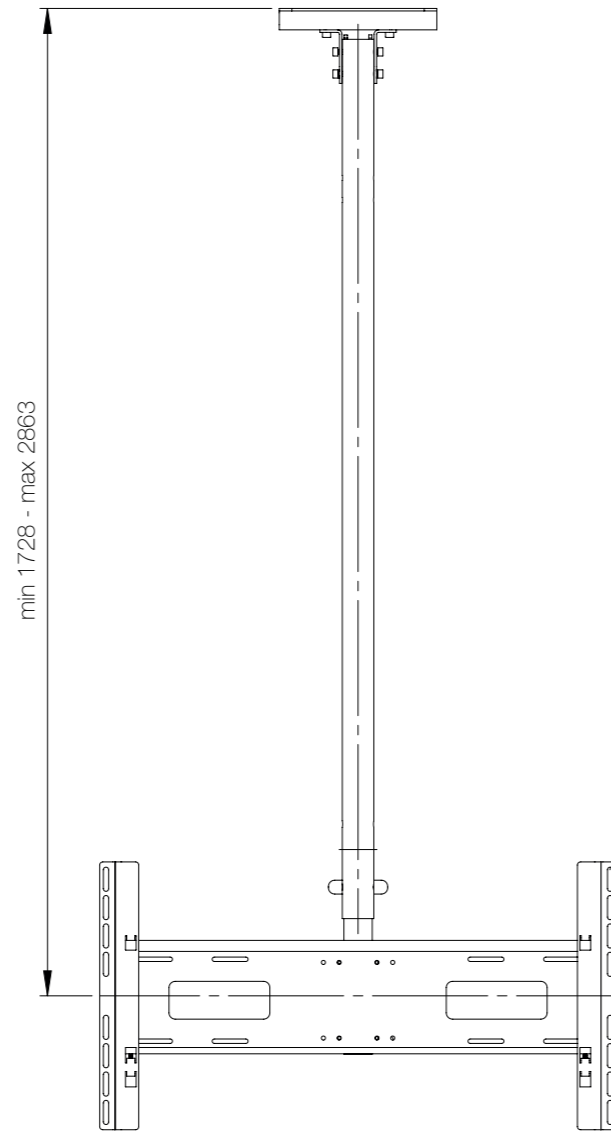

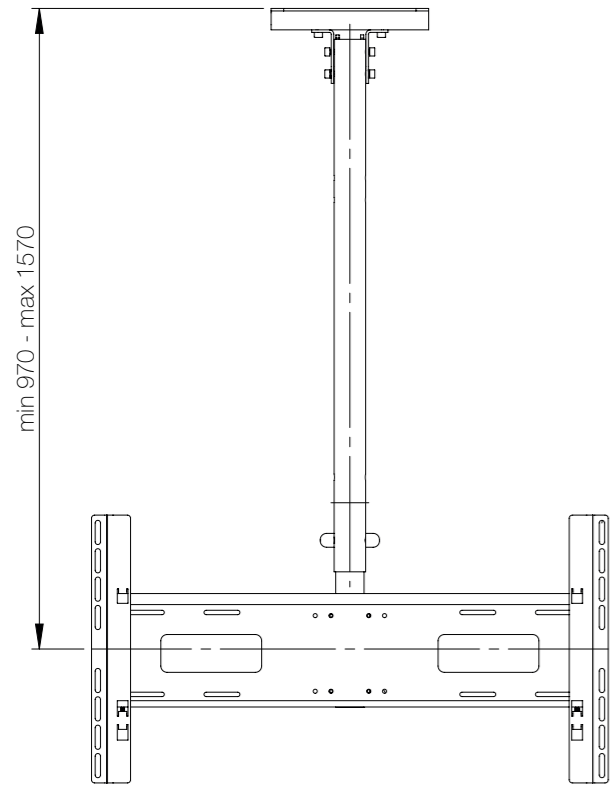

Func Pipe CHVST2/D2 945-1545 +
Func Pipe CHVST2/D2 1540-2740

Minimum and maximum lengths standard pipes + extension pipes 2:

Func Pipe CHVST2/D2 945-1545 +
Func Pipe CHVST2/D2 2540-4540

Minimum and maximum lengths standard pipes +2 extension pipes:

Func Pipe CHVST2/D2 945-1545 +
2x Func Pipe CHVST2/D2 2540-4540

The standard pipes should always be used together with the extension pipes.

When cutting a pipe, the minimum measurement can decrease with 200 mm.

Please note that the images are not 100 % realistic, only schematic to show minimum and maximum lengths.

All measurements are in mm and can vary +/- 5%.
