

X WH S

Check out the different lengths!

A clean, refined and flexible wall bracket

A flexible wall bracket that is available in several lengths. Choose a short version if you want only to have the screen on the bracket, or choose a longer version if you intend to add shelves or cabinets. The screen can be mounted on the bracket in both a vertical and a horizontal position, and at selected positions along the column. Electrical power sockets can be installed on the rear of the column, as an option. Can also be mounted onto concrete pillars.

The X series is characterised by clean and refined features. The cable holder, for example, into which it is easy to place all cables by hand. The surface finish has also been given extra attention.
