

PRESENCE VIDEO CONFERENCE

SKU: N/A

A stable, patented, and at the same time elegant design. The unique design completely hides cables and peripherals inside the product. Attractive from all sides, thus able to be placed in the centre of the room. Perfect for large, heavy displays and touch-sensitive displays, due to the very stable design. A camera shelf is included.

The pre-factory assembly means that installation is easy and quick, while the hidden cable chain inside the product ensures that the cables run freely with no risk of fastening. Fine adjustment possibilities allows for edge-to-edge mounting of displays. The displays can also be locked with a padlock or the accompanying locking screw, which provides increased protection from theft and personal safety. The design is protected.

Max weight 55

Warranty 5
